Patient Financial Assistance Policy

Plain Language Summary

As part of Tower Health at Home’s mission to provide compassionate, accessible, high-quality, cost-effective healthcare to the community, we recognize some patients and families may need financial assistance to help with the cost of healthcare services. Therefore, Tower Health at Home offers patient financial assistance to ensure access to high-quality health care for all.

Eligibility and Assistance Offered

Patients who are denied Medicaid coverage, or who are screened and do not meet the Medicaid guidelines, will be considered for the Tower Health at Home Patient Financial Assistance program. Patients and families wishing to apply for assistance may submit an application and the supporting documentation to a Tower Health at Home patient financial services representative.

The Federal Poverty Guidelines are updated yearly and are used to determine eligibility for Patient Financial Assistance. Patients will be asked to provide verification of household income along with the names of people living in the household during the application process. This information is used to identify where the household falls within the Federal Poverty Level Guidelines (FPL). The FPL category will determine the amount a patient will pay toward a medical bill. For patients above 400% of the FPL, the uninsured rate applies. The uninsured rate is 70% of the amounts generally billed and is applied when an initial payment is made. Patients eligible for financial assistance will not be charged more than the amounts generally billed for emergency or other medically necessary care.
